

SKELLERUP

NEW SOLE - NEW SAFETY STANDARD

- 100% natural rubber upper with built-in UV inhibitors to withstand New Zealand's harsh environment
- Heavy-duty, 100% cotton canvas for strength, flexibility and protection
- 3mm genuine rubber sponge innersole for under foot comfort and a reduction in foot fatigue
- Waterproof ribbed tongue gusset
- 6 hole lacing for firm fit
- Non slip, high abrasion, oil resistant nitrile rubber commando sole
- Internal steel toe cap for certified toe protection
- Tested and approved to the Australian and New Zealand safety standard AS/NZS 2210.3:2000, Classification II

ASHLEY STEEL TOE GUMBOOTS

Skellerup gumboots are all hand made to exacting specifications

Every Skellerup boot is assembled by hand, incorporating on average 30 components and four rubber formulations, before the finished product is vulcanised using heat and pressure.

To ensure comfort and compatibility with local conditions, all our boots are shaped to match typical New Zealand feet.

Skellerup gumboots the "natural choice"

Skellerup gumboots are made from 100% natural rubber and cotton canvas, both renewal resources.
